Elks Score Record Celebration Crowd

Champion Elks certainly achieved a triumph on Monday, July 1st, when the biggest crowd in the history of the town gathered to celebrate the 62nd anniversary of confederation. There were thirteen hundred paid admissions at the gate and as all children under fifteen years were admitted free it is safe to say the crowd on the grounds numbered 2,500. The weather was all that could be wished for. A cloudless sky with only a light breeze made a combination hard to beat, and while many may have wished for cooler conditions during the day the situation was perfect for pulling off a program of sports.

The parade was the first feature and forming in the subdivision was headed across the main streets and to the ground by the Vulcan band. While the number of decorated cars was disappointing there were nice floats both in number and quality, while the work on the Women's Institute decorated car was highly creditable.

From the first it was evident the management had the program well in hand and the different events followed one another with regularity which was commendable. The ladies of the Royal Purple had charge of the stands and were more than busy all day, ice cream in particular and cold drinks being in great demand. The Vulcan band made an excellent impression and was a big factor in the day's enjoyment. The byrne, Baddelley shows put on the carnival events to general satisfaction.

The second day of the Champion celebration was marred by a high wind and clouds of dust, which at times made it impossible to see with any comfort. The wind did away to some extent in the late afternoon and a considerable crowd gathered to see the final of the two big days. The airplane was present but the day was unfavorable for flying and only a few acrobats were made. The crowd stayed through the evening and for the second time the community hall was crowded with dancers. Following are the results as far for both days as could be ascertained:

Decorated float, 1st Ladies' Aid, 2nd Trail Rangers, 3rd Sanderson School.

Decorated car, 1st Women's Institute.

Best dressed girl in Elks' colors, Helen Smith.

Best dressed boy in Elks' colors, A. Bergeson.

Two decorated carts drawn by Shetland ponies exhibited by the Caldwell and Anderson children were both awarded prizes and were among the most deserving entries on the grounds.

Champion defeated Barons in the intermediate baseball game, winning the \$25 prize.

No records were kept of the foot races and bicycle races, which were very interesting nevertheless.

Free for all house race, 1st Beingesner, 2nd A. Verslyus.

Relay race, 1st E. Williamson.

No records available of bucking contests.

Baseball: Carmangay won from Lemond. Arrowwood won from Blackie and Carmangay won the final from Arrowwood.

Softball, won by Sweden team.

In the boxing contest Liddle of Magrath won from Aitchison of Letbridge.

The attendance included contingents from all adjoining towns and districts, Lemond in particular being well represented.

Boners-Verslyus
The United Church at Nanton was the scene of a wedding on Tuesday, July 2nd, when Johanna Verslyus became the bride of Floyd Arnold Boner (Mickie). The bride and groom are both residents of Champion and will live near the subdivision for the present.

Softball Ruining Ex-Athletes

Softball has claimed many victims since its inception in Champion and if fatalities are to continue at the same rate something will have to be done about it. P. M. Patterson was forced to take to his bed for a week with strained tendons in his leg. G. L. Dupre has been limping around in a way highly detrimental to his duties in connection with the I. H. C., and Frank Sisson has a finger ready for amputation as a result of trifling with the insidious softball. Of course a lot of old men who should have known better have been attempting to play the game but even conceding this there has been a lot of real disabilities to players not to mention a collection of half cripples who have never exerted themselves in order to think they have recalled their youth. Beware of the softball.

Empire Service Of Thanksgiving

As it has been announced that His Majesty King George V. will attend church on Sunday, July 7th, for his first public service of thanksgiving following his prolonged illness, and as he has suggested that his people throughout the Empire also attend their churches on that date, the United Church invites every one to join in thanksgiving for the recovery of our King, at this regular hour 7.30, next Sunday.

McDougall Exhibit For Calgary

A. S. McDougall left on Friday for Calgary fair where he will exhibit Lismore Princess, junior yearling; Grace Darling, junior yearling; Lismore Lavender, senior calf and Lismore Hope, junior yearling. He will also show Princeton 112, yearling Hampshire ram from Prince of Wales stock, without doubt the finest ram ever seen in this part of the province, and an Oxford ram and three ewes.

Splendid Showers Help Growing Grain

Splendid showers on Thursday and Friday night have relieved the anxiety with regard to growing crops. Indications all point to a continuance of showery weather.

Carmangay Picnic Was Success

The Carmangay Agricultural Society picnic on Wednesday was well attended in spite of many counter attractions on the same and previous days. The Champion team were winners in the softball game to the surprise of themselves and everyone else, particularly in their home town, where the ordinary imagination cannot conceive a team that could play any worse. After such a victory a lot more old timers may be looked for on the laid out list. All those who took in the picnic report a very pleasant time.

Miss Mary Bowman and Jim Bowman spent Sunday at Waterton Lakes.

N. St. Peter of Milo has a new motor boat in operation on Lake McGregor.

THURSDAY, July 4, 1929

NOTES AND COMMENT.

The sixty-second anniversary of confederation is past and gone. It was a blazing hot day but very suitable for celebrations, although some of the celebrants must have had "hot time" in more than one way. July 1st is naturally the big holiday of the year in Canada and its observance this year was fully up to precedent.

Someone with a vivid imagination should take in hand the origin of a new style of program for celebrations in this part of the country. There is nothing to say against baseball, bucking contests and horse and foot races, but with these at their best there seems to be room for improvement. Surely there is a little more variety available for big days programs.

Numerous delegates from all parts of Alberta and Montana are expected to attend the annual Sunshine Trail convention which will be held in Lethbridge some time in August. The definite date will be announced shortly.

The Carmangay Agricultural Society is planning this year for a bigger and better fair than ever. Naturally this means an extra effort to secure exhibits. The Champion W. I. has made arrangements to prepare another community exhibit for the occasion and this should include an effort to urge individual exhibits of the material that goes to make up the community exhibit. Stockmen in the Champion district have always taken a prominent part in the Carmangay fair and there is no reason why other lines of exhibits should not be fully as prominent at this annual exhibition as those made in live stock. Self interest would prompt an effort to make a real exhibit at the Carmangay fair.

Revised figures show that during 1928 the fish Culture Division of the Fisheries Branch distributed 470,302,390 fish and fish eggs to assist in maintaining and increasing Canada's fishery resources. The distribution was over fifty-nine per cent larger than in 1927 when the total was 295,283,782. A feature of the 1928 work of the Division was the increasing attention to the propagation of game trout in response to public desire. During the year two new hatcheries were constructed in Nova Scotia for salmon and trout, a pickerel hatchery in Manitoba, a whitefish and pickerel hatchery on Lesser Slave Lake, and a trout hatchery in Waterton Lakes Park, Alberta, so that the Fish Culture Division now operates thirty main hatcheries and ten subsidiary hatcheries, in addition to a number of salmon retaining ponds and egg collecting stations. In addition to distributions of fry and eggs that were made from

the hatcheries last year the Division also placed nearly 45,000 fry and older fish from other waters in twenty-six lakes and streams, largely in the Prairie provinces. Seven different species of fish were represented in these transfers. In British Columbia the hatchery distribution included salmon of various kinds, trout of various kinds, and whitefish. In Alberta the distribution was made up of trout, in Saskatchewan trout and pickerel and whitefish, in Manitoba pickerel and whitefish, and in the Maritime Provinces salmon and trout. The fisheries of Quebec and Ontario are administered by the provincial authorities in each case and there are no federal hatcheries in these areas.

From all parts of Canada there are satisfactory reports concerning the high level of business activity, although there are a few lines, such as automobiles, where the mid-summer recession is beginning to be felt. Building contracts for the first five months of the year exceeded the high records made 1928; iron and steel production is at a maximum, and flour mills are turning out a larger volume than in recent years. The mining statistics for the first quarter of the year show a substantial gain over the record attained in 1928, and forecasts for total production for the year are optimistic. Although the recent fall in the price of wheat has made dealers in semi-luxury products somewhat cautious, the actual volume of distribution in the early part of the year has been exceptionally satisfactory.—Royal Bank Letter.

Whitefish were worth more than a million and a quarter dollars to the people of the Prairie Provinces and the Yukon Territory in 1928. The catch of whitefish in this area during the year, 12,112,100 pounds, was slightly less than in 1927, a Fisheries Branch statement says, but it had a marketed value of \$1,200,089 or nearly \$23,000 more than in the preceding year. Taking the Prairie Provinces and the Yukon as a whole, the whitefish is first in importance among the fishes.

WEATHER PROPHETS ARE PREDICTING MUCH HAIL THIS YEAR

Most everyone thinks the prospects are fine. For a bumper crop this year twenty-nine. So far no grasshoppers, drouth, or rust. But we fear hail, and hope and trust. That it may not come, yet it may with a rip and roar. And if not insured, we will be sad and sore. It is not wise to delay, it may come very soon. You may feel rich today, be broke by tomorrow noon.

The rate is quite high for the risk is great. If you are not haled it is luck or fate, L. J. Adams & Son give the service you require, And will write you up any time you desire.

He has the best dose that Canada can give. To cure this great loss, and help you to live. The two Strongest Companies now writing hail, So protect your crops, see them with— (Grain Growers & Casualty Companies Capital over one hundred and thirty million.)

5 Models of Combines

That Keep Running
Keep Threshing
Keep Saving

With Many Combinations of Headers, Separators, and Windrow Pick-ups, to suit all farm conditions of Soil, Crop and Power

Here is a complete line of Combines—combined harvester-threshers—that gives the grain farmer in this community a range of sizes never offered before.

It provides a line from which you can select the combination of header and thresher size that is suited to your farm whether it is large or small, rolling or prairie land, sandy or heavy soil, suited to your crop, whether it is light or heavy straw, tangled or straight standing, weedy or clean, suited to your power, whether it is small or large.

More than all that, we will assist you in working out the combination that is best suited to your conditions.

In keeping with the policy of the Nichols & Shepard Company, "More than 4 score years of 4 square dealing"—we want to furnish you the machine that will give you the best service for your crop.

It will be found in the Nichols & Shepard Line of Combines—the combines that are light of draft, ample in power, sure in threshing, reliable, that enable you to harvest your crop easily and fast, and deliver it clean, bright and merchantable. See us for full information.

BABY'S OWN
But for Baby SOAP for the

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

As gray dawn creeps over the New York skyscrapers, Marcus, the famous revue producer, is leaving the fashionable Plaza night club with a party of four. An unseen companion suggests that they go to Black Joe's club, where the "fun is just starting," and Marcus consents. At Blackie's shabby club the producers are seated at a "big side table" by Al Stone, Blackie's house singer, who is a comedian, who wonders who they are. Grace, the singing waiter, introduces the name "Marcus," and hopes the celebrated producer will do something to help Al, whom she admires tremendously.

CHAPTER II

As Al hurried toward the door leading to the bar, Grace speculated as to whether she could get even and intercept him. But he was moving too fast and there were too many tables in between for her to wait until he returned, then she would drop a word as to Marcus' identity. It was necessary for Al to know that, so he could put everything possible into the comic songs he would sing in a few moments.

Grace's sensitive young face was a study in devotion. Al Stone had been her best friend at Blackie's place. When she had taken the job of cigarette girl a few months before, the crude, vulgar, hard-boiled and performers frightened her, the rough-and-ready atmosphere of the place made her timidly draw in herself. Then it was that Al had put his hand kindly on her shoulder and looked down into her apprehensive brown eyes.

"Don't be scared, kid. Everybody's all right here."

Two minutes later, Al had forgotten his words, but Grace trembled and knew them by heart. She had promptly fallen in love with him in devotion. Al Stone, she knew it, not even Grace herself. She merely knew that the dark, gentle eyes of the young singing waiter in the place made her timidly draw in herself.

Now he was obscured for a moment as a chorus of dancing girls tripped across the floor. The chorus was agile, but that was all you could say. They were neither graceful nor beautiful.

Marcus, the producer, the connoisseur of femininity, the despot who picked out the loveliest girls for his revue and released the others for months until they were step-perfect—Marcus made no attempt to hide his disdain at this display for entertainment. Grace saw him turn to the pretty actress at his table with a bored look that said only too plainly: "So this is what you brought me to see?"

Then Grace heard a voice behind her, a rough masculine voice.

"Hey, cigarette girl, come here." She swung about and carried her heaping tray of cigars and cigarettes to a nearby table. Three men, heavy-eyed and uncertain of speech, looked up into her face.

Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Lago, Canby, N.E. writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second dose saw a great improvement. I gave him almost a bottle and he was completely relieved."

"I have used it for the other children, and my husband and myself. My husband gives it great praise, and when he goes away he takes a bottle with him."

Put up only by The T. Millburn Co., Ltd., Toronto, Ont.

W. N. U. 1752

"Want some—cig—cigarette," said one of them. Grace lowered her tray for this patron to make a selection and, as she did so, became aware that one of his companions had drawn his chair closer to her.

"Say, you're a nice kid," suggested the second man, with a rapid expression on his face. "Do you know—you're cute. I been watchin' you."

Grace smiled faintly, but ignored him otherwise, while she passed out the cigarettes to the first customer. That was what Blackie and Al had told her to do when the patrons became personal in their remarks—say nothing and attend to business.

As she leaned across the table to hand another pack of cigarettes to the third man of the party her skirts rose a trifle. Without looking up, she knew that one of the customers was looking her up and down. Then suddenly she felt her other hand being lightly grasped.

She straightened up sharply and tried to draw away. She knew she wasn't making a scene, for after all, she was only a night club cigarette girl, and the customers must be ignored a little.

At this moment, Al Stone, just about to turn the corner to the bar, looking to the bar, took a glance across the room and visualized Grace's predicament in a flash. In a moment he had veered across, while Grace gazed beseechingly into the drunken man's eyes and murmured, "Please let go."

Then Al looked at her side and stepped sharply on the man's foot. A cry of pain came from the customer and he released Grace to seize his aching toe.

The girl caught Al's hand and made good her escape while the three unsteady Don Juan stared up in bewilderment at Al's broad grin.

"Why did you step on my foot?" "Did I do that? I'm sorry."

Across the broad, but guileless grin from Al, they were moved off, swiftly as he had come.

But now he felt a hand lightly on his sleeve and looked down into the eyes of a lovely girl.

"Thank you, Al," she murmured. The waiter patted her on the shoulder. "That's all right, Grace. Those things will happen. If they bother you again let me know."

Al glanced down at the diminutive Grace, his handsomeness softened, as it always did when he reassured her. But in the tenderness of her dark eyes he saw only the grudge of someone he considered merely a sweet child. To him the marked evidence of acceleration in her breathing and the faint tremor of her warm and lovely little mouth were only her reactions to fright.

But he did not see her hand turn, as he moved away, while her eyes followed him adoringly.

Not until he disappeared and the waiter brought her back to a moment did Grace recall that she had a message for him.

But when the singing waiter, cupping his hand over his face, he did not head straight across the big room, instead he paused in the doorway, entered the main place and corridor. Through an open doorway he saw a good-looking blond girl, a few years older than Grace, seated at a table in the dressing room. She was studying her reflection in a self-satisfied way as she slowly and rhythmically brushed her lustrous golden hair.

This was Molly Martin, the ballet singer at Blackie Joe's.

Al moved slowly toward the door as if drawn by a magnet, forgetting his order for a moment. His eyes lit up at the sight of Molly and with fascinated gaze he watched her white, rounded, raised arms protruding from her pink silk dressing gown as she slowly manipulated the hair brush.

Molly was undoubtedly a pretty girl and one of the favorites at Blackie Joe's. Yet there was a hardness about her eyes and a petulance discernible at the corners of her mouth that boded no good for the man who would fall in love with her. Al, however, was blind to these defects.

As he neared her dressing room door she saw him, gave him one indifferent glance, then turned to the mirror again to arrange her slightly lops. At that moment of studying her reflection Molly, the heart-song specialist, was gazing at the person she loved best!

(To Be Continued.)

Sixteen Pianos Cross

The loading of the French biplane "Yellow Bird" in Spain brought to a total of 16 the number of times the Atlantic Ocean, north and south, has been crossed by heavier-than-air machines. Dirigibles have made the crossing five times.

The world uses eight machines per day per inhabitant.

Old London Church

Sanctuary Made Famous By Chas. Dickens Is In Danger Of Crumbling

The church of St. George-the-Martyr, immortalized in "Little Nell" by Dickens, as "Little Dorrit's Church," is in danger of crumbling. All London knows St. George as "Little Dorrit's."

Ominous cracks many feet long have appeared in the walls and crypt. These are gradually widening until now the whole structure has been placed in danger.

The authorities have threatened to condemn the building unless prompt action is taken to make it safe. The rector of the church has started a drive for \$25,000 for repairs to save it.

"Little Dorrit's Church" was built in 1730, and was given its popular nickname because one of Dickens' characters often slept in the vestry with the church register as his pillow.

Upon the site of St. George-the-Martyr stood another church dating back to 1122 in the time of the Saxons. It is the earliest if not the oldest church in London.

Service For 'Plane Passengers

May Receive Market Reports and Musical Programs Is Prediction

Aeroplane passengers of the future may expect to listen regularly to market reports, baseball scores, and musical programs, if the prediction of W. P. McCracken, Jr., of Cleveland, is carried out. He envisions a commerce for aeronautics, comes true.

"These programs could be tuned in right now, for that matter," McCracken indicates. "In favorable weather the pilot of a properly equipped plane has no need of his radio apparatus."

McCracken predicts that great developments will be made in the line of radio transmission from ground to plane and from plane to ground.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The little ones come quickly and unless the mother is prompt in beginning treatment a precious little life may be snuffed out almost before the mother realizes her baby is ill. The prudent mother always keeps on hand the medicine chest as a safeguard against the sudden illness of her little ones.

Thousands of mothers have found, through experience, that there is no more reliable remedy for their baby's illness than the Tablets and that is why they always keep on hand the Tablets in their home, where they always feel safe with the Tablets.

Little Ones' Tablets are a mild but thorough laxative which by regular use keeps the bowels free from constipation and indigestion; breaks up colds and simple fevers and promotes healthy sleep. They are gentle, never hurt. Mrs. Isaac Smith, St. Louis, writes: "I have used Little Ones' Tablets ever since my child was born and have found that they reach the spot and do more good than any other medicine I have ever tried. I have kept the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by a medicine dealer or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Why Shouldn't It Be

Has Lyman, the Hollywood jockey, who is playing at the Kilt Kat Club, in London, England, recently journeyed up to Scotland for the week-end. Returning from Glasgow to London, Lyman had a travelling companion in his compartment a rather close-mouthed, middle-aged Scotchman. After an interminable number of stops at various stations, he found he Scott looking more dour and solemn than ever, an angry frown.

The Scotchman looked at him with a frown, and said: "You're a damned fool, Lyman, by way of making conversation."

"The Scotchman looked at him with a frown, and said: 'You're a damned fool, Lyman, by way of making conversation.'"

"So it ought to be," he replied frigidly. "It cost fifty-nine shillings nine pence!"

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Evening In Browning

United States is growing fat on the manufacture of Canada's raw materials. Since United States will not accept a reciprocity of trade, Canada will have to retain most of its raw materials.

Small But Efficient
A small electrical instrument, four inches across and not seven inches high, will, it is claimed, detect and escape of only 11 per cent. of gas in any tunnel or inspection chamber. When the escape occurs this instrument warns the nearest telephone exchange.

Minard's Liniment for Neuralgia.

Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited go 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for motor oils.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor, in the air or on the road, because its carbon-free and heat-resisting superpriorities are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

To Capture Cup

Sir Thomas Lipton To Make Another Effort To Win International Honors

"In going to do my darndest to bring the cup back," Sir Thomas Lipton said in the first interview he has granted since acceptance of his challenge to another international yacht race in 1930.

On the veranda of his mansion at Rossmore, Sir Thomas appeared vigorous and healthy, despite the fact that he will be celebrating his 80th birthday at the time when the yacht is racing off Newport.

"Do I think I can win the cup this time?" repeated the veteran sportsman, pondering for a moment.

"Well, I am going to do my darndest. I hope and trust we will have good luck. To bring back the cup would be one of the greatest pleasures of my life."

C.S. Duncan, Sir Thomas' racing manager, said that the Shamrock V, the challenging yacht, would not be a fresh boat, and express of the opinion that the rules for the 1930 race as outlined from New York bettered the chances of the challenger.

Bicycle Boats Are Latest

Have Become More Popular Than Swimming Channel

Bicycle-boat racing on the Channel has replaced swimming in popularity. Three athletes have already succeeded in crossing, so far this year. The latest was a woman, Miss Alice Pinner, who pedaled her way over on a nautical bicycle in 9 hrs. 10 min.

She was worn by the effort that she floated as she got off her feet.

The bicycles are fitted to two long-pointed pontoons and the pedals are attached to paddlewheel propellers. The sail-bikes make about five miles an hour, but currents bother Channel races.

"My daughter is going to be married and I want to get her a little gift," said a prosperous-looking man who entered a house furnishing store, adding: "Let me see your cutting glasses."

EQUAL TERMS IN SETTLEMENT OF RESOURCES DEAL

Ottawa.—The Dominion government is now preparing a bill to settle the Alberta and Saskatchewan, in settlement of the natural resources question, "treatment similar to that granted to Manitoba with respect to the continuance of Dominion subsidies."

It was stated by the prime minister that the Dominion government having in mind negotiations now pending with the provinces of Alberta and Saskatchewan, and the representations of the governments of these provinces with respect to the continuance of the payment of subsidies in accordance with the terms of existing legislation, is now prepared to accord to Alberta and Saskatchewan, in settlement of the resources question, treatment similar to that granted to Manitoba with respect to the continuance of Dominion subsidies.

The report recommends that Manitoba be paid the sum of \$4,284,212 in cash as the balance due for past arrears covering the period during which the resources have been eliminated. It also recommends that from now on until the population of Manitoba reaches 800,000, the province shall receive annually the sum of \$262,000. When the population reaches 800,000, the report proposes that this amount shall be decreased to \$750,000 per annum. Finally, when the population increases to 1,200,000, the amount payable annually will rise to \$1,125,000, and remain unchanged thereafter.

Subsidies must be paid from the treasury and the country generally must provide the cash. It has been demonstrated frequently that the eastern provinces of Canada consider themselves very important parties to any settlement which is made of the natural resources question. Treatment must be fair to both east and west.

The function of the commission was to ascertain what financial readjustment should be made for the purpose of placing Manitoba in a position of equality with the other provinces of Confederation in respect to the administration and control of its natural resources.

Name Canadian Destroyers

Vessels To Be Called "Saguenay" and "Sheena"

Ottawa.—The two new Canadian destroyers are to be named "Saguenay" and "Sheena," Hon. J. L. Ralston, minister of national defence, has announced. The vessels are being built at Southampton by Thornycroft & Co., at a combined cost of approximately \$3,000,000 and are expected to be completed in two years. They will replace the "Patricias," which were declared obsolete and were sold some time ago to be scrapped.

Scores Killed By Storm

Belgrade, Jugoslavia.—Press dispatches from Jugoslavia point out that more than 100 persons killed in the last fortnight by violent recurring lightning storms. Thousands of cattle have been carried away by floods with immense damage to orchards and vineyards.

The King Making Good Recovery

London, England.—"I can give you complete assurance that the King is making a very good recovery," said the Prince of Wales in a brief speech at the annual banquet of the British Empire Service League. The Prince presided at the banquet.

Population Decreases

London, England.—England and Wales have decreased in population by 44,112 persons in the first quarter of this year, when compared to an increase of 31,011 persons for the same period of 1928, is causing some alarm.

For Crippled Children

Geneva, Switzerland.—A world conference of workers for crippled children, to be attended by public officials, scientists, and social workers, will be held here July 25 to August 2.

Red Veteran Dead

Winnipeg.—A participant in both Red rebellions, George Buchanan, 82, who came to the West as a member of the Red River expedition, died at his home here.

W. N. U. 1792

To Find Solution Of Naval Problem

Premier MacDonald Is Very Hopeful Of Ultimate Outcome

London, England.—Premier Ramsay MacDonald made known he hoped before many days it would be possible to make definite announcements of the naval disarmament negotiations will be conducted, where a conference would be held, and the precise objectives of that conference would be stated.

He was speaking at a Labor reception held at the Friends' Meeting House, in Exton Road. At the same time he disclosed that he had had a second conversation with General Charles G. Dawes, new United States ambassador to Great Britain, and had seen Hugh S. Gibson, United States ambassador to Belgium, who arrived in London to assist General Dawes in finding a solution to what has been termed the out-standing issue between the two English-speaking nations.

Premier MacDonald, while very brief, was extremely hopeful. After he referred to the great political Labor had won and the general position of his government, remarking that there would be no more than 48 years, and said to be the oldest member of that order, is dead here. Mr. Wicket was born in Ontario and became a member of the Order of the United States.

"We have allowed no grass to grow under our feet. We have already started conversations with the United States government. I am not a prophet, and am not going to pose as one able to prophesy. I am convinced of this, that the chief danger to the world in the way of an understanding has been created if I may ring the changes on one English word, a lack of understanding of each other. The great thing which is wanted in the world today is capacity of different nations to put themselves in each other's shoes. That will be one of the things that we shall try to do in the course of these negotiations."

Crop Conditions Good

But Not Up To Last Year Says C.N.

Montreal.—Crop conditions throughout Western Canada, although excellent in certain districts, are not generally as promising as at this time last year, stated Dr. W. J. Black, director of colonization and agriculture of the Canadian National Railway, who has returned from an official tour of the west. Notwithstanding this, however, conditions generally are more prosperous than for some years in Western Canada, said Dr. Black.

There is a tremendous area under cultivation in the west, and the entire Peace River country and land settlement has been going forward there at an enormous rate. Settlers are being moved in large numbers all over the west, and the Fort St. John district and they appear generally to be a fine lot of people.

Canada's Forest Wealth

Will Take Inventory Of Forest Resources As Preliminary To Reformation Plans

Ottawa.—Federal and provincial governments of the Dominion are co-operating for the purpose of taking an inventory of Canada's forest resources. Today, Hon. Charles Stewart, minister of the interior, opened a conference attended by seven provincial ministers, as well as by several federal and provincial officials, which will endeavor to arrive at the actual forest wealth of Canada.

In his brief opening address, Mr. Stewart pointed out the importance of this step as a preliminary to reforestation plans.

Posthumous Award For Bravery

Rome.—The gold medal for bravery was conferred posthumously on Dr. P. H. Malmgren, noted Swedish scientist, who died while attempting to summon aid after the Polar dirigible crashed in the Arctic, a year ago. The government awarded the scientist's mother, who lives in Sweden, a pension of 5000 yearly and sent her documents gathered by an official investigating commission and paying glowing tribute to Malmgren's heroism.

Hill In South Africa

Durban, Natal, South Africa.—The most destructive hail-storm in this city's history occurred here, causing damage which some estimate at 500,000 pounds sterling, about \$2,500,000. A few minutes after the storm started, it lay eight inches deep on the streets, some of the stones being four inches in diameter.

Damage By Storm Cannot Be Computed

Cost Of Semi-Tornado In Montreal District Will Run Into Millions

Montreal.—The full story of the electrical storm and semi-tornado which swept down from the north, spreading death and destruction in its path from the Laurentians to the eastern townships, remains to be written. The death toll stood at seven but news from the Laurentians, where the storm was particularly fragmentary owing to continued destruction of communication lines. Total damage caused by the storm will never be completely computed, but it is extensive and probably runs well into the millions. \$1,000,000 worth of damage alone having resulted when lightning set fire to the Sacred Heart convent at Saul au Recluse, near here, and completely destroyed that widely known educational institution.

Oldest Old Fellow Dead

Andrew Wicket, Vancouver, Was Member For Sixty-Five Years

Vancouver.—Andrew Wicket, aged 92, a member of the Independent Order of Old Fellows for more than 65 years, and said to be the oldest member of that order, is dead here. Mr. Wicket was born in Ontario and became a member of the Order of the United States.

"We have allowed no grass to grow under our feet. We have already started conversations with the United States government. I am not a prophet, and am not going to pose as one able to prophesy. I am convinced of this, that the chief danger to the world in the way of an understanding has been created if I may ring the changes on one English word, a lack of understanding of each other. The great thing which is wanted in the world today is capacity of different nations to put themselves in each other's shoes. That will be one of the things that we shall try to do in the course of these negotiations."

MAY RESUME TRADE RELATIONS WITH MOSCOW

London, England.—One of the first acts of the new Labor government has been to cable the announcement to all the Dominion governments of the British Empire that Great Britain intends to resume diplomatic relations with Soviet Russia in the near future.

Political observers believe the Labor ministry's move will receive sufficient support from Conservative and Liberal members of Parliament to assure approval of British diplomatic relations with Moscow.

It has long been known the Labor party was in favor of resuming diplomatic and trade relations with Russia, broken off by the raid on Arcos House, London, headquarters of the Russian commercial mission, made by the late Conservative government in May, 1927.

Although the official department is not technically dependent on approval of its new Russian policy by the Dominion, the co-operation of other parts of the British Empire is ardently desired in London.

Well-informed persons think resumption of trade with Russia will be proposed in the King's speech from the Throne, July 3, which will announce the program of the government.

It is thought the government may count on support from both opposition parties, since the leaders of the Liberal party severely criticized the Baldwin government for its break with Russia. Among many young members of the Conservative party there is strong sentiment for getting on normal terms with Russia.

NEW C.N.R. HOTEL FOR VANCOUVER

The finest hotel on the Pacific coast is now under construction in the heart of Vancouver for the Canadian National Railways. The excavation for the foundation has been completed and the steel contract awarded and work will be pushed vigorously until the hotel is ready. This fine building, which will occupy a prominent place in the downtown section of the city, will be known as The Canadian National Hotel. It will contain five hundred bedrooms and will be a valuable addition to all its facilities. The photograph shows the architect's conception of the new hotel as it will appear when completed.

U.S. ENVOY TO BRITAIN

General Charles G. Dawes, new U.S. envoy to Great Britain, who discussed the question of naval disarmament with Premier MacDonald.

Rum Running Wanes

Significant Drop In The Export Of Liquor Is Reported

Windsor, Ont.—Canadian customs returns for the current month should show a significant drop in the exports of liquor from the Essex border district, according to reports of the United States authorities.

Imports at the one-time notorious liquor receiving depot of Essex have been cut to a fraction, according to customs patrols, while the occasional run boat on the American side of the Detroit river is more or less an oddity these nights, they say.

Considerable liquor, however, is getting through below Sarnia, on the Trenton front, guarded by the greyhounds of the "dry" navy, the United States coast-guard cutters. The rum boats are shooting out from Amherstburg into the lake and there are no government boats in adequate numbers to stem the tide.

But the situation is to be remedied, according to plans made. More than fifty boats of all descriptions are to be in service by July 1. It was reported, ranging in type from launches to the 70-foot speed boats, carrying one-pound guns and useful for long chases.

Declares Stresemann Failure

German Foreign Minister Fared By Non-Confidence Vote

Berlin.—Dr. Gustav Stresemann, German Foreign Minister, in a vigorous reply to severe Nationalist criticism, told the Reichstag Germany would not stand for the installation of a commission in the Rhineland as the price of its evacuation.

When he debate was finished for the day the Nationalists introduced a motion of no confidence against the Foreign Minister, declaring his five years in that post had been a failure.

Famous Movie Dog Dead

Hollywood, Calif.—"Strong Heart," dog hero of the movies, died at the home of his owner, Miss Jane Martin. He was 13 years old. A complication of diseases, following an operation several months ago, caused his death. Trained in the Berlin police kennels, "Strong Heart" served with the German Red Cross during the Great War.

Stockmen Protest Against Land Sales

Grazing Leases Said To Be Unsatisfactory To Cattle Men

Swift Current.—As a result of the Saskatchewan Stock Growers' Association Convention, held in this city, the stockmen of the province are taking action in several matters of importance to the ranching industry. The school lands grazing leases are anything but satisfactory to the cattle men, it being contended that government regulations regarding such leases have been changing so frequently that ranchers do not know where they stand in the matter from year to year, the latest action being the offering for sale of school lands used for grazing.

The Dominion Department of Agriculture is being asked to make a survey of the Dominion to ascertain the most suitable districts for winter feeding in the interest of the stock-raising industry.

Wins Hungarian Derby

Horse Sold For Seventy Dollars Once Again

Budapest, Hungary.—A condemned and long forgotten horse, sold by his former owner for \$70 because he considered him "fit only for the stable," has won the Hungarian National Derby, a \$30,000 prize against a field of 21 of the best horses in the thoroughbreds.

When Bahabo's old master consigned him to the farm he was bought by a local tavern-keeper, who found him too short to hitch to a car. He turned him over to a friend, who, after a few months' training, sent him to race again, the action culminating when he assumed the proudest place on the Hungarian turf.

GRAIN DRYING DETAILS GIVEN TO COMMISSION

Winnipeg.—The suggestion that two standards for grain grading be established—one for grain destined for the eastern seaboard and the other for westbound cargoes, did not receive the approbation of James D. Fraser, chief of the western inspection department, when counsel for the Saskatchewan Royal Grain Commission asked his opinion of the proposal during the commission's session here.

"I don't see how grading standards could be established," declared the inspector chief for the western division. "Once the standard is set by the board it must be maintained regardless of its destination."

Technical knowledge of grain drying was given the commission by Dr. V. H. Hargrave, professor of agricultural chemistry at the University of Manitoba, who was a member of the associate committee of national research on grain drying, declaring that grain can be dried from any state. Dr. Geddes pointed out that, according to the conclusions reached by his committee, the safest manner in which to dry grain was by a continuous discharge of grain through the drier. Hatch drying, he said, was found not suitable.

On Chief Brown's suggestion that heated wheat could be tested before sold, Mr. Fraser replied that the only tests which could be made would be those of milling and baking.

And to mill and bake wheat for testing purposes would be a great obstruction to the grain movement during the "rush season," he added. The tests would take about two days, he thought.

To convince eastern and overseas buyers that damp wheat, when dried in elevators, is as good value as straight graded wheat of the same grade, Mr. Fraser thought the inspection department would have to be given complete supervision over the grain drying. If the wheat is properly heated, the color of kernel would be changed, he told the commission, but not the protein value. He thought that if the inspection department marked heated grain it would be accepted by buyers. The damage to tough and damp grain is all done during the heating process, the commissioners were informed.

Asked if he favored abolition of the standard in all grades, Mr. Fraser would not reply. He thought however, that prohibition of mixing would materially lessen the labor of the elevator, though he doubted if whether the present uniformity in grades would be upheld.

SAPIRO FAVORS ONE HUNDRED PER CENT. POOL

Saskatoon.—"Your Pool needs one experienced man of five years of pure co-operative marketing and I come with all sincerity to tell you that the next step is for a 100 per cent pool."

These were the messages brought by Aaron Sapiro, co-operative marketing expert, who addressed a large gathering of farmers here, under the auspices of the United Farmers of Canada.

In his opening remarks Mr. Sapiro announced that his subject would be "100 Per Cent. Pool Control." He told the gathering that he was not here under the auspices of the Wheat Pool, but at the request of the U.F.C.

The fact the Wheat Pool has at all times been in opposition to the 100 per cent pool, was pointed out by Mr. Sapiro, who was born and bred in Saskatchewan, the speaker declared.

"At the 100 per cent pool, it is far from dead," he emphasized, "regardless of who wants to put it under the ground."

At the outset, he contended that a 100 per cent pool was not only proper, but absolutely essential for true co-operative marketing, that all wheat grown in the province would be delivered to the pool for a period of years.

The legislation, which would be of a permissive nature, might be either provincial or Dominion. He was convinced with the specific form of the law. The whole question was whether the farmers wanted a purely co-operative system, or a system that was spiced with speculative agents.

Grain dealers, Mr. Sapiro said, would naturally be opposed to the idea of a 100 per cent pool. Also those in back to the grain dealers, he said, could not understand why co-operative leaders should be opposed to the idea.

Railroads Paid Large Sums

Washington.—Canadian railroads total \$400,000,000, in round figures out of the United States, as freight carriers of the west, and the railroads shipped over Canadian lines in 1928. These figures are contained in a pamphlet on international payments put out by the Department of Commerce. On the other hand, Canadian paid about \$14,000,000 to United States roads for similar transportation.

Re-Elected As Speaker

London, England.—The new British Parliament held its first session under the Labor government and re-elected Captain R. A. Pridmore, Conservative, as the Speaker. As a vote was cast against the popular presiding officer, who was lauded in the nominating speeches for his impartiality.

United Thanksgiving Service

Ottawa.—Churches of Canada are invited to unite with those of other parts of the Empire in thanksgiving services for the recovery of His Majesty the King on July 7. The cabinet passed an order-in-council constituting the official invitation. Each church will be asked to conduct its own service.

Used Primitive Methods

Port Arthur, Ont.—Throwing a stone a big bear, which he had surprised in the act of robbing his catch of fish, Paul John, Indian trapper, new from the Yukon, killed the animal. He then rubbed at the animal with a hunting knife, and, burying it in the bear's throat, killed it.

Russian Nobility For West

Quebec.—On the "Emigrants of Australia" arriving last week, the Prince and Princess Le Guiteau, members of the Russian aristocracy who have been living in Paris since the revolution, it was stated they would take up farming in the west under auspices of the Canadian Pacific Colonization Department.

Market Commissioner

Victoria.—The Hon. T. O. Connors, former M.L.A. for Saanich and son of the Earl of Coventry, has been made market commissioner in London, England. It is understood, his main business will be to build up the demand for Okanagan fruit.

EDITORIAL

Keeps 'em Sweet
A mighty good way to keep your milk cans from acquiring a muggy odor even tho' the lid may be on tight is to put some crumpled newspapers in them. The newspapers take up the moisture and absorb all odor.

A \$5000 grain crop is worth trying with good tines. Don't risk partial loss to save one or two dollars on your twice bill. Insist on Mc-Grig. And know that you have the best.

Artistic was Bobby Mc-Vickers.
His snail-shell was covered with stickers. His view was so bad. A smash-up he had.
Well folks the celebra-

tion is over. It is a success from all angles. The sad part of it all is that the week felt on too few people.

Kitts are a Scotchman's apology for indecent exposure.

Some folks think that a binder is a binder, but let us tell you that a real grain binder is a Mc-Grig.

Some one said that that Swede delegation could play softball but, there seems to be some doubt as to that.

A Poet's Hint
If your chickens have worms add 3 pounds of tobacco dust to every 100 pounds of mash and feed the mixture for about 4 weeks. Then give the chickens a little of salt at the rate of about 5 pounds to 100 pounds of mash. Then start the cycle over again. In this way you can rid your chickens of worms in excellent shape.

It is our aim to keep our local service worthy of the Mc-Grig. Line which we represent. Courtesy and attention to detail shall be our watchword.

A laundry is a place where your clothes are mangled.

For summer-fallow you can find nothing better or faster than the Mc-Grig. Rod weeder. It sweeps everything in its path and cuts 13 feet.

"Once Over and It's All Over," with a Mc-Grig. Harvest-Thresher.

Conditions of life under the sea that you never thought existed—drama of a new sort to thrill you—a gripping picture of a submarine disaster. See "Submarine."

A vivid, colorful and graphic portrayal of life on the floor of the ocean with its beauties, its thrills and its daring adventures. Never have you seen a picture like this one. See "Submarine."

Travers celebrated on July 3rd and had a splendid turnout and the program presented evidently pleased the spectators highly. An airplane was present and was busy throughout the day.

Earl Grant of Barons, formerly of the Service Garage, Champion, was united in marriage to Ethel Eva Anderson, daughter of Mr. and Mrs. Henry Anderson, Barons, at the home of the bride's parents on Wednesday, July 3rd, by the Rev. S. R. Hunt.

Champion Royal Purples and their husbands were guests at a birthday held by Royal Purple Lodge, No. 28, of Macleod on Friday evening, June 28th. A whist drive in the early part of the evening was followed by a splendid banquet which was thoroughly enjoyed by the visitors, who speak in the highest terms of the entire affair. A. W. Jopling won the gentleman's prize in the whist drive. This was the second anniversary of the Macleod lodge.

85 Degrees in Shade And Baby

It is 85 in the shade as this is being written with every prospect of being warmer. Half an hour ago a young Mother was giving her baby an airing in its buggy. Mister baby was far from happy and didn't mind letting every one know it. Mother was dressed in a cool white sleeveless dress and wearing a shady hat. Baby was wearing a hot woolen close fitting hood tied under his protesting little chin. He was tucked tightly in the buggy with several layers of blanket and on the top of that a nice warm wooly shawl, and although they could not be seen, it is almost certain he was wearing woolen stockings. Comparing mother's warm day outfit with baby's, it is any wonder his protests were loud and long! Baby feels the heat just as much as Mother does and suffers more because he cannot make himself comfortable. He has to wait until some one else thinks to do it.

In the summer heat baby's clothes should be the minimum. If a Mother has any doubt, let her slip her hand inside baby's clothes and if it is little body feels moist then he is too warm. Clothes lightly and cover lightly so that the air may circulate freely over his skin. This keeps him cool. Give him cool boiled water between feeds. He gets thirsty too during hot days. Do these things and a happy contented baby will be the result.

For "summer care of babies" send to the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

Lutheran Church Services

There will be no Lutheran services until further notice as the Lutheran pastor is leaving for the States on account of the illness of his wife's mother.

Miss Ella Stephenson and Miss Jessie Archibald of Calgary were among the holiday visitors.

Leon Walker, Lomond, catcher, injured in Monday's game with Cammagay is around again and will soon be fully recovered from his injuries.

Thursday night's thunder shower, reached the proportions almost of a cloud burst at some points south and west of town. The rain ceased within a half mile of Champion.

Practically every visitor to Champion points out that the crops in this district are the best seen in the country, and there is every reason for congratulation on this situation. Recent rains have relieved any anxiety in the way of lack of moisture and with ordinarily favorable weather there is little doubt that there will be bumper crop. Growth has been very rapid during recent warm weather and the crop is heading out in the very best of condition.
